

ASSURANCE & INVESTIGATIONS CONFERENCE: DEBATE AND HACKATHON

26-27 April 2018

The ICT industry needs skilled practitioners especially with the increase in cyber-attacks being experienced globally. Whether you are a veteran in the field or you are just starting your career, it is imperative to continuously develop and sharpen your skill set.

This year ISACA Harare Chapter wishes to invite you to a conference that goes beyond theory, but incorporates real-world examples of security attacks and how to detect and combat them. This conference is for any Information security professional who wishes to understand the tools and techniques used by those who intrude our ICT environments and gain knowledge on how to protect our organizations against such attacks the best way possible.

This conference is open for ISACA certified members, professional practitioners in the field of IT Audit, IT Security, IT Governance, IT Risk and general IT Administration as well Strategic decision makers and implementers. The event is also open to professionals in the Internal Audit departments who are looking to improve on their skills and knowledge.

Register today to earn your 12.5 CPEs.

Registration Fees:

Early Bird registration fees before 29 March 2018: **Full package**
